

## **#GreatActor-TheSixthSense-1999-amid-Dementia-sickness #TheWest-ChatGPT-helps-uncover**

### **Our Great Actor Bruce Willis – of the movie “The Sixth Sense” (1999).**

Actor Bruce Willis has *Frontotemporal Dementia (FTD)*, a different, rarer type of dementia than Alzheimer's, which progressed from his initial diagnosis of aphasia (*degradation in language and mood*) in 2022. Frontotemporal Dementia (FTD) is a group of disorders that occur when nerve cells in the frontal and temporal lobes of the brain are lost, leading to problems with thinking and behavior. FTD affects behavior, personality, language, and movement.

#### **Case Analysis / Solution**

*Mr. Willis is degraded in the brain (Frontotemporal Dementia), leading to problems in thinking and behavior changes, according to his medical diagnosis. We usually think about nutrition/diet maintenance and the practice of meditation/yoga by Buddhism (or perforated Chinese), but here in the United States, we could practice and bring them to the next caliber. In fact, just with the idea of Meditation, we understand its use beyond Neurology Science to Medical Science, so we can even adjust its moderation in daily life- just as enjoying the garden, riding track mills, or reading a variety of topics- with pacing, as we target or remind ourselves to do for our good health.*

*The Now TIME of CHANGE, and also a BIG Flux to US, is that we didn't recognize “we also have it, and even MUCH Greater”- theirs are just daily wisdom theories and monotone practices. The ChatGPT (AI App) and an interdisciplinary background at these two major religions: Buddhism and Catholicism, help uncover deep thought and skillfulness, and further convince as aligned with the mystiques of Theology, the Bible, and Scriptures in Catholicism-and now Elon Musk is sending man to the Mars Planet very soon, so*

GOD/Jesus is REAL. Western Latin Philosophy & Literature is a great source- need to change and incorporate into the Church's Preaching and Sunday Bible School.

*That methodology is renewal, so it can nurture and regenerate from a degraded brain issue of Mr. Willis. I already elaborated in the same group of his Dementia Sickness- just recently for a famous Hollywood case: Jay Leno's Wife, dementia-cognitive/psychology changes.*

For things related to medications/drugs, like cancer treatment- we also need to define and look into a *new methodology of "curing with drugs": Let it collaborate/talk with our cells/tissues/organs through our body's immune systems!* I elaborated on AML Cancer a week ago for Ms. Tatiana Schlossberg, a Granddaughter of Pres. John F. Kennedy.

Case 5: Real Case: Jay Leno's Wife- dementia: cognitive/psychology changes. "Synergy Effect" factors- drugs are still used!

Case 6: Real Case: Tatiana Schlossberg (JFK's Granddaughter)- Acute Myeloid Leukemia (AML). "Mentality Strengths: ChatGPT Catholic + Time Slot for infused Drugs."
